

Intellidyne Product Information

Energy Savings - 10% to 30% average reduction in fuel usage

Reduced Start Ups – Increases equipment life and reduces emissions

Green - Reduces CO² emissions

Guarantee – 10% reduction in first year fuel costs or money back!

Energy Facts

A decrease of only 10% in industrial energy use would save the equivalent of about 550 million barrels of oil per year, worth about \$10 billion.

Just by using the "off the shelf" energy-efficient technologies available today, we could cut the cost of heating, cooling, and lighting our homes and workplaces by up to 80%. (U.S. Dept of Energy.)

Steam, Hot Water or Forced Air Heating Fuel Saving Device

Intellidyne, LLC is the market-leading manufacturer of energy-saving controls for commercial and residential heating control units. Intellidyne has already been installed in thousands of government, commercial and residential buildings, our product line is measurably reducing energy consumption, energy costs and pollution throughout the country.

Intellidyne products immediately reduce energy consumption in boilers, steam heaters, forced air systems and hot water plants by as much as 30 percent. Product performance has been validated by performance testing at internationally recognized research facilities including Brookhaven National Laboratories, NYSERDA, Brooklyn Union (KeySpan), and ConEd Solutions. Our products are UL listed in the United States and Canada as meeting the highest safety standards.

Intellidyne controls are the product of choice both for home and commercial heating. Homeowners no longer need to choose between home heating comfort and a reduced heating bill. It makes no difference whether a house has a boiler or furnace or uses natural gas or heating oil, the results are the same. Homes that install IntelliCon controls save more money on their utilities while feeling warm and comfortable.

Our line includes controls for hydronic, steam and forced air heating systems as well as package/rooftop air conditioning units. By design, all Intellidyne products work with new and existing systems; are easily and non-invasively installed; won't violate manufacturer's warranties; and are totally maintenance free. Intellidyne customers include Walgreens, the US Army and Estée Lauder, all having discovered the tangible difference that Intellidyne® can provide.
